

## Take up the BNI Otago Rail Trail Cycling Challenge

# Living Every Moment

A BNI Fundraiser for the Otago Community Hospice

## 300km Cycle Challenge for Dunedin Hospice

Living every moment...this is the motto of the Otago Hospice who offers palliative care for people with life limiting illnesses. Taking this motto to heart the Larnach (Otago) chapter of Business Network International has organised a 300km long cycle challenge along the Otago rail trail, raising much need funds along the way for Hospice.

The spectacular rail trail ride will start in Middle March and provides access to some of the most beautiful scenery not seen from the highways including mountain ranges, hills and gorges, the vast Maniototo plain and old gold mining towns. Most riders will complete the 157km one way challenge cycling up to 90kms a day over 2 days; while others have taken the 'living every moment' motto to heart and plan to cycle back taking their total cycle challenge to over 300km!

Currently over 40 riders, ranging the age from 12 to 65 have registered to take up the challenge with all riders \$110 registration fees going directly to the Otago hospice.

This is the Otago business community working together at its best to not only network and challenge themselves but to raise funds for an important charity. So far over \$4500 has been raised and they are hoping for more riders and donations along the way

For more information and/or to organise photos with riders please contact Steve on 021 999 671 or [steve@carisma.co.nz](mailto:steve@carisma.co.nz)
